Investment Objectives and Goals

The investment objectives of the Foundation are:

- Safety of principal
- Long-term growth to offset inflation and maintain real value
- Asset management for total return with an emphasis placed on current income

The principal (book value) will remain intact and never be spent. Future funds received will be included on the principal account. It is understood that there is no definite time period for investment principal, thus, the principal will remain invested indefinitely. Appreciation of initial book value of funds received shall be treated as income and not added to the principal account.
